Education

- **Academy of Technology, Adisaptagram** Aug 2023 – Jun 2027
B.Tech in Computer Science and Engineering CGPA: 8.8
Relevant Coursework: Data Structures, Algorithms, OOP, DBMS, Computer Networks, Software Engineering
- **Satish Chandra Memorial School** 2020 – 2022
Higher Secondary (CBSE) – **92.6%**
- **Satish Chandra Memorial School** 2007 – 2020
Secondary (CBSE) – **97%**

Technical Skills

- **Languages:** JavaScript, TypeScript, Python, Java, C/C++
- **Backend:** Node.js, Express.js, REST APIs, Flask, FastAPI
- **AI / LLM:** LangChain, LangGraph, OpenAI APIs, LLM Integration
- **Databases:** PostgreSQL, MongoDB, MySQL, Redis
- **ORM / Data Tools:** Prisma, Drizzle ORM, Elasticsearch
- **Frontend:** Next.js, React.js
- **DevOps / Tools:** Docker, Git, Linux, Render, Vercel

Experience

- **Full Stack Developer Intern, Indomitech Group** Feb 2026 – Apr 2026 [Offer Letter](#)
 - Developed REST APIs and full-stack features for client projects, translating business requirements into functional software.
 - Contributed to backend integration, application development, testing, and delivery across the software development lifecycle.
- **Freelance Developer, Smile Care Dental Clinic** [Live Website](#)
 - Built and delivered a full-stack web application based on client requirements, managing implementation and testing.
 - Coordinated requirements, development tasks, and delivery within the agreed timeline.
- **Junior Software Developer Intern, Resourcio Pvt. Ltd.** Jun 2025 – Sep 2025
Backend Developer [Certificate](#) | [Offer Letter](#)
 - Developed backend functionality using Strapi, including content models, REST APIs, and content management workflows.
 - Integrated backend APIs with frontend systems to support reliable data exchange and application functionality.
- **Tech Lead, IEI Student Chapter CSE, AOT** Oct 2025 – Present
[Member Certificate](#)
 - Designed and deployed a Task Manager platform with automated email reminders and task management functionality.
 - Leading development of the official SC-CSE AOT website: www.sccseaut.in.

Backend Projects

- **SusQuery – SQL Detective Game** [Live](#)
 - Built a gamified SQL investigation platform featuring authentication, query evaluation, progress tracking, leaderboards, and admin-managed challenges.
 - Developed backend services using Node.js, Express.js, Drizzle ORM, PostgreSQL, and Redis, implementing DQL-only query execution and caching for frequently accessed data.
- **Smart Attendance Monitoring System – Final Year Project** 2026 – Present
 - Developing a CCTV-based attendance system using face recognition for automated attendance management.
 - Designing backend architecture with scheduled background jobs for attendance processing, optimized storage, and real-time synchronization. [GitHub](#)
- **Alumni Portal, Academy of Technology** [Live](#)
 - Developing a scalable alumni networking platform with mentorship, networking, and alumni engagement features.
 - Implemented Redis caching, Elasticsearch-powered search, and WebSocket-based real-time communication using Next.js and Express.js.

Achievements

- **Best Innovative Project – Hack-Technique (2026)** GLOF Risk Intelligence
 - Developed an ML-powered platform for Glacial Lake Outburst Flood risk assessment, featuring secure REST APIs, authentication, input validation, and risk prediction.
 - Integrated backend services and ML inference using Express.js, Flask, Scikit-learn, XGBoost, and Pandas. [GitHub](#)
